

27 Mile Loop Valley View

© Copyright 2006 Paul Rito

Ride description: A mid-distance ride on Valley View Road, which as it's name implies, has great views of Happy Valley. This is not a climb-free ride, but the main ride climbs are short and well worth the effort. The main ride is 27 miles and there are options of 18 and 15 miles. The uber-options add a wealth of short climbing training rides. Option A1 hits Upper Gyp Road which tested the climbing mettle of the Tour de Toona riders a few years back. Option A2 on Armagast Rd (past the Armagast farm stead) is a easier (and shorter). Want more climbing? Skip Valley View on the main ride and head up to the top of the mountain on Purdue Mt. Rd. Want even more climbing? Try Option B in reverse up Rock Rd and add Upper Gyp. Whew!
